EXPERIENCE

Proposal/Marketing Creative Lead

York Space Systems | Greenwood Village, Colorado

07/2026 - Present

- Translating complex technical requirements into clear, compelling graphics, system diagrams, presentations, and page-limited submission content for competitive government proposals.
- Develop compliant proposal volumes and marketing materials from RFI/RFP through final submission, applying solicitation requirements, Section L/M guidance, brand standards, and rigorous quality control under aggressive deadlines.
- Partner with capture managers, proposal teams, engineers, and subject matter experts to develop persuasive win themes, discriminators, technical visuals, and executive presentations supporting high-value government and defense pursuits.

Web Design Lead & Graphic Designer (*part-time*)

Conversa Corps | Remote, Colorado

04/2024 - Present

- Created a brand identity and style guide adopted by 20 plus staff and volunteers, ensuring consistent messaging across all channels.
- Redesigned the WordPress website, increasing traffic by 72% within the first 30 days post-launch.
- Partnered with cross-functional teams to enhance UX and accessibility across more than 15 pages, improving navigation and user engagement.
- Developed and maintained visual assets for campaigns, social media, and newsletters, increasing volunteer engagement and donor awareness.
- Implemented SEO and analytics strategies, tracking site performance and guiding design improvements to boost reach and conversions.
- Designed infographics, reports, and digital collateral to clearly communicate program outcomes to stakeholders.

EXPERIENCE CONTINUED

Freelance Graphic Designer (*part-time*)

Freelance | Remote, Colorado

01/1999 - Present

- Delivered 50+ branding, print, and web projects annually, helping clients increase brand recognition and streamline visual communications across industries.
- Created complete identity systems—logos, business cards, stationery, and visual guidelines—that strengthened brand cohesion and reduced client revision cycles by ~30%.
- Built, administered, and maintained responsive websites, improving usability and engagement for audiences of 1,000+ users per site.
- Developed print and digital assets—flyers, mailers, t-shirts, patches, certificates, and promotional items; ensuring high-quality production on time and within budget.
- Managed social media strategy and content for Twitter and Instagram accounts, growing follower counts by 20–50% within initial campaigns.

Software Developer & Graphic Designer

Grey Matters Defense Solutions | Centennial, Colorado

11/2017 - 11/2025

- Designed and delivered 30+ branded assets, proposals, and presentations, strengthening stakeholder engagement and enhancing program communications.
- Produced promotional and training videos, improving internal knowledge sharing and driving adoption of new tools and processes.
- Developed and maintained web-based applications and tools using Angular, CSS, HTML, Java, JavaScript, Qlik, and SQL, supporting mission-critical operations for hundreds of users.
- Accessed and integrated various intelligence data sources to inform tool development, enabling actionable insights and enhanced decision-making for end users.
- Contributed to CI/CD pipelines, version control (Git), and automated testing, improving software reliability and accelerating deployment cycles.
- Created and maintained a company style guide, standardizing logos, colors, and visual elements for consistent branding across proposals, web tools, and outreach materials.
- Achieved a 20–30% reduction in reported issues and increased efficiency through UI and usability improvements.

Software Engineer/Web Developer

Lockheed Martin | Aurora, Colorado

01/2005 - 11/2017

- Managed and maintained secure internal websites and web-based tools across 5+ classified programs, supporting more than 650 personnel on multiple networks.
- Designed, developed, and supported database-driven ASP and ColdFusion applications, delivering new features, bug fixes, and long-term maintenance for mission-critical systems.
- Served as the sole graphic designer on a \$180M U.S. government proposal, producing visuals, layouts, and branded materials under strict security constraints.
- Contributed to a four-member Agile team on a 400-person contract, delivering 30% of customer emphasis items over a two-year period.
- Collaborated with customer, program managers, engineers, and security teams to translate requirements into secure, user-friendly digital products.

EXPERIENCE CONTINUED

Graphic Designer

VU Media Duplication/National Teleprinting | Denver, Colorado

04/2001 - 08/2004

- Designed packaging, layout, and promotional materials for 1000+ clients, supporting everything from small businesses to regional brands.
- Produced 400+ print and media projects annually, delivering fast-turn, press-ready files using Adobe Creative Suite.
- Developed artwork for VHS/CD/DVD packaging, inserts, programs, and direct-mail pieces, ensuring accurate specs for offset and digital printing.
- Prepped and optimized files for production, including color correction, CMYK conversion, preflight checks, trapping, bleeds, imposition, and font management.
- Collaborated closely with sales, production, and management teams to translate client concepts into accurate, deliverable print assets.
- Worked directly with clients and external designers to review supplied artwork, resolve technical issues, and meet printer requirements.

Graphic Designer

Bighorn Graphics, dba Sir Speedy | Centennial, Colorado

01/1997 - 10/2004

- Designed and delivered full identity packages including logos, business cards, letterhead, and promotional materials, helping clients establish cohesive brand presence.
- Advised clients on design choices, paper selection, specialty printing options, and cost-effective solutions, balancing quality, budget, and timelines.
- Coordinated with paper suppliers, outside printers, and bindery services, ensuring availability, meeting deadlines, and managing production specifications.
- Prepared color separations, proofs, and film output for printing press plates, ensuring accuracy and high-quality final products.
- Operated and maintained Fiery RIP software/device, digital printers, Xerox large-format copier, cutting and bindery equipment, and MacOS computers, supporting seamless production workflow.
- Managed a digital archive of 5,000+ customer files, enabling fast turnaround and reducing errors.
- Produced repeat orders of business cards, letterheads, and stationery, maintaining consistency and brand standards across client materials.
- Collaborated with production staff to ensure print-ready files met specifications, improving efficiency and minimizing rework.
- Designed client-ready materials using Aldus FreeHand, Aldus/Adobe PageMaker, QuarkXPress, Adobe Illustrator, Adobe Photoshop, Microsoft Publisher, Microsoft PowerPoint, and Microsoft Word.

Graphic Designer

University of Northern Colorado | Greeley, Colorado

10/1995 - 12/1995

- Modified existing artwork to meet updated specifications, ensuring consistency and adherence to brand standards.
- Produced promotional materials including table tents, posters, flyers, and signage to support university events and increase student engagement.
- Collaborated with campus staff to deliver timely, high-quality graphics for multiple concurrent events.
- Maintained organized project files and templates to streamline future promotional production.
